

Kasasa Cash Back with Kasasa Saver - Truth In Savings Disclosure

This disclosure contains the rules that govern your deposit account as of January 3, 2025.

Account Overview:

- Kasasa Cash Back: A free variable reward checking account with no minimum balance that rewards accountholders with cash back on their signature-based debit card purchases and nationwide ATM withdrawal fee refunds when they meet minimum qualifications during the account's Monthly Qualification Cycle.
- Kasasa Saver is a free, variable rate, deposit account with no minimum balance that rewards accountholders with interest when they meet the minimum qualifications associated with their linked Kasasa Cash Back checking account during each Monthly Qualification Cycle.

Purpose and Expected Use of Account

This account is intended to be the accountholder's primary checking account in which payroll transactions and day-to-day spending activities including but not limited to grocery, gasoline, apparel, shopping, dining, sporting and entertainment transactions are posted and settled.

Commensurate with the spending activities identified above, we expect the account's debit card to be used frequently throughout each month and for transaction amounts to reflect a wide dollar range. Small debit card transactions conducted on the same day at a single merchant and/or multiple transactions made during a condensed time period particularly near the end of a Monthly Qualification Cycle are not considered normal, day-to-day spending behavior. These types of transactions appear to be conducted with the sole purpose of qualifying for the account's rewards and thus will be deemed inappropriate transactions and will not count toward earning the account's rewards.

Sharon Bank reserves the right to determine if the account is being maintained for a purpose other than day-to-day, primary use. Accountholders who persist in making debit card transactions in a calculated and limited fashion in order to meet their monthly qualifications may have their accounts converted to a different checking account or closed altogether. We also reserve the right to convert the account to a different checking account if the account does not have consistent active use over Three (3) consecutive Statement Cycles.

We have the right to close this account at any time, with proper notice. Our decision to close the account will not affect your existing obligations to us including any obligation to pay fees or charges incurred prior to termination. No deposits will be accepted and no checks will be paid after the account is closed. If the account is closed, you will forfeit any rewards that have not been credited to your account. A Sharon Bank check for the remaining balance, if applicable, will be mailed to accountholder at the address indicated on our current records. Upon termination of your Kasasa Cash Back with Kasasa Saver

account, any optional add-on products / services associated with this account will also be terminated at the same time.

If, for whatever reason the Kasasa Saver portion of your account is closed, your account will automatically be converted to a standalone Kasasa Cash Back account and only the Kasasa Cash Back terms and conditions articulated within this disclosure will apply.

Interest Rate & Annual Percentage Yield (APY)

Variable Rate Account: Your interest rate and annual percentage yield may change.

Determination of Rate: At our discretion, we may change the interest rate on your account.

Frequency of Rate Changes: We may change the interest rate on your account at any time.

- **Compounding & Crediting:**

Interest will be compounded on a monthly basis. Interest will be credited to your Kasasa Saver account on the last day of the current statement cycle. If you close your account before the interest is credited, you will not receive the accrued interest. Interest begin(s) to accrue on the day you deposit noncash items (for example, checks).

"Statement Cycle" means the period of time for which Sharon Bank provides a summary of the financial activities and transactions that post and settle to the accountholder's account. See our website or contact one of our branch service representatives for specific Statement Cycle dates.

- **Balance Computation Method:**

We use the average daily balance method to calculate the interest on your Kasasa Saver account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period. The period we use is the Statement Cycle.

- **Interest Rate & Annual Percentage Yield:**

When your Kasasa Cash Back account qualifications are met during a Monthly Qualification Cycle:

Kasasa Saver: average daily balances up to and including \$50,000.00 in your Kasasa Saver account earn an interest rate of .74% resulting in an APY of .75%; and average daily balances over \$50,000.00 earn an interest rate of .25% on the portion of the average daily balance over \$50,000.00, resulting in a range from .75% to .42% APY depending on the account's average daily balance.

When your Kasasa Cash Back account qualifications are not met during a Monthly Qualification Cycle:

Kasasa Saver: the entire average daily balance in the Kasasa Saver account earns an interest rate of .02% resulting in an annual percentage yield of .02% APY.
