How do I deactivate the Text Message Banking service?

You can text back "stop" to 454545 on your activated cell phone, or you can return to the mobile banking page and click the deactivate link next to your mobile device number. Your phone will no longer receive any text messages from Mobile Banking. You can add a new phone at any time if you change your mind later.

Why do I need to verify my phone?

Verifying your phone is a one-time step and is one way we ensure the security of mobile text messaging.

Where do I find my activation code?

During setup we will send you a text message with your activation code. If you have already submitted your mobile number during setup, check your mobile device now. You should receive a text message with your activation code within a few minutes.

Can I come back later to enter my activation code?

Yes you can. If you experience difficulties we recommend that you go through the setup process again and get a new code.

I still have not received my code, what do I do?

It might take several minutes to receive your code. If you feel you have waited long enough you can click the "resend code" link. Please check your mobile device shortly for a new text message. If you are still experiencing problems be sure you entered in the correct mobile number during setup.

What is a primary text banking account?

Your primary account is the default account that we will use when you text BAL to 454545. You should select the one you will likely want to check the most often. You can get all account balances by texting BAL ALL to 454545.

Can I get the balances of all my other accounts?

Yes – when you text "BAL ALL" to 454545, we will reply with a message containing the balances of all your checking, savings and credit card accounts.

Can I change the primary text banking account later?

Yes you can. Simply return here to the mobile banking page and select the edit link next to your primary bank information.
